

# Muck, Mess & Mixtures

In **Speaking and Listening** we will talk about personal interests to other members of the class using particular topical vocabulary. We will draw on experiences and engage in imaginative play using different objects to spark discussions and opinions.

In **English** we will be writing for different purposes. We will be writing and following instruc-

As **Scientists** we will be exploring a range of everyday materials. We will use different materials to experiment what happens when we mix things together! We will develop our scientific language to talk about what we have found out and communicate our ideas. We will identify and classify and use observation to suggest answers to questions

As **Mathematicians** we will use different units of measurement to estimate and measure length and height. We will look at properties of both 2-D and 3-D shapes and how these can be found in everyday objects. We will continue to use the mathematical operations to solve problems, use money and interpret and construct pictograms, tally charts, block diagrams and simple tables.

As **Designers** we will experiment with different inks to produce multi-coloured pieces and prints. We will be sorting foods according to a range of different criterion, working together to follow recipes and make different foods!

In **P.E** we will look to master basic movements applied in a range of activities including running, jumping, throwing and catching as
